

The image features a modern outdoor lounge area. In the foreground, a glass-enclosed structure with a white frame and floor contains a white sofa and two armchairs. To the right, a white sofa is placed on a dark patio. The background shows a blue sky with white clouds, green trees, and a building. The text 'UNIQUE CONCEPTS' is overlaid on a white banner at the top.

UNIQUE CONCEPTS

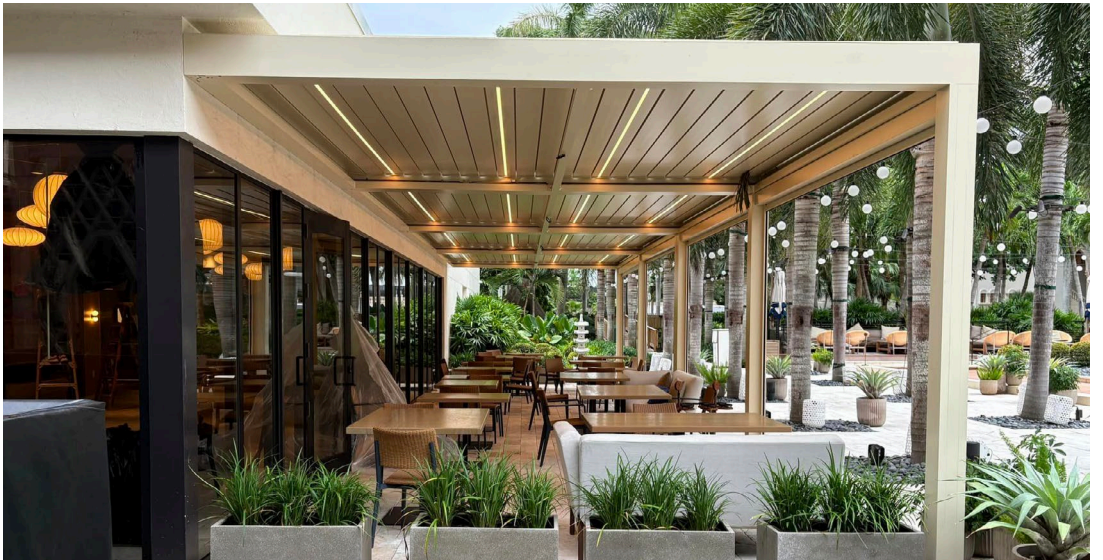

**Creating your dreamy
outdoor living space
indefinitely**

Get inspired

Patios, terraces, walk ways, backyards, carports, barbecue areas, balconies and swimming pools are some of the places where louvre pergola creates the ability to enjoy tranquility and create a dynamic entertainment area for family and friends.

Louvre pergola enhances the enjoyment of people's leisure experience. Restaurants, cafes, playgrounds, golf clubs, resorts, theme parks, science and technology parks, sports facilities, pool decks on boats and hospitals are just some of the applications where louvre pergola controls ambience, which is critical in providing quality services to customers.

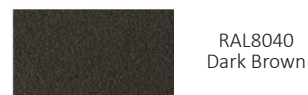

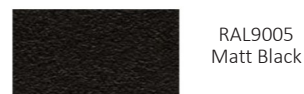

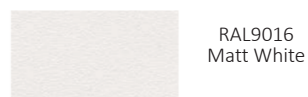

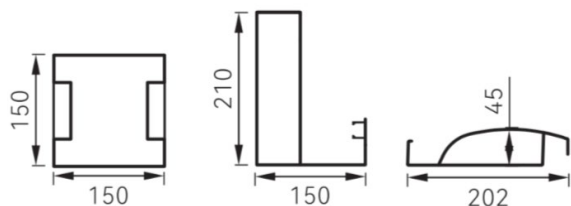

Louver pergola Z188

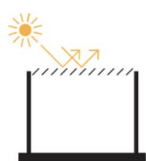

Elegant pergola style, simple and stylish design, with automatic bioclimatic roof, aluminum slats that can rotate from 0 to 110°, smoothly adjustable rotation, giving you precise control of light and air circulation whatever the weather. Pergola Z188 is sturdy and weatherproof, and accessories such as lighting, glazing, heating and blinds make it perfect for year-round use. Perfect for private special places at home or commercial use. This product is available in custom sizes in the range.

Specification of aluminum profiles
